

Federal Energy and Water Management *2016 AWARDS*

Exceptional Service Category

Mr. Jonathon Dalsfoist
Joint Base Elmendorf Richardson

Mr. Dalsfoist has worked as a mechanical engineer for the federal government for over 45 years and is currently the lead mechanical engineer for energy projects with the 673 Civil Engineering Squadron at Joint Base Elmendorf Richardson (JBER), Alaska. His direct actions in producing energy conserving projects has led to significant resource savings and sustainability accomplishments far beyond the boundaries of the JBER Installation. In his over 45 years of government service, Mr. Dalsfoist has saved his salary several times over by providing innovative projects that have reduced government energy consumption far in excess of existing requirements.
